	Response				
<b>Disposal</b> Dispose of contents/container in accordance with local/regional/national regulations.	Storage	Store locked up.			
	Disposal	Dispose of contents/container in accordance v	vith local/regional/national regulations.		

None known.

# 3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%	
water		7732-18-5	30 - 40	
ethylene glycol		107-21-1	1 - 3	
triethanolamine		102-71-6	1 - 3	
diethanolamine		111-42-2	< 0.3	

Specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures	
Inhalation	If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions.
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. If ingestion of a large amount does occur, call a poison control center immediately.
Most important symptoms/effects, acute and delayed	Narcosis. Behavioral changes. Decrease in motor functions. May cause an allergic skin reaction. Dermatitis. Rash. Edema. Prolonged exposure may cause chronic effects.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	IF exposed or concerned: Get medical advice/attention. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

# 5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
General fire hazards	No unusual fire or explosion hazards noted.

# 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	This product is miscible in water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use. Put material in suitable, covered, labeled containers. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

# 7. Handling and storage

Precautions for safe handling

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices. For product usage instructions, see the product label.

Conditions for safe storage, including any incompatibilities

Store in a cool, dry place out of direct sunlight. Keep container tightly closed. Protect from freezing. Store away from incompatible materials (see Section 10 of the SDS).

### 8. Exposure controls/personal protection

### Occupational exposure limits

US. ACGIH Threshold Lim Components	it Values Type	Value	Form	
diethanolamine (CAS 111-42-2)	TWA	1 mg/m3	Inhalable fraction and vapor.	
ethylene glycol (CAS 107-21-1)	Ceiling	100 mg/m3	Aerosol.	
triethanolamine (CAS 102-71-6)	TWA	5 mg/m3		
US. NIOSH: Pocket Guide	to Chemical Hazards			
Components	Туре	Value		
diethanolamine (CAS 111-42-2)	TWA	15 mg/m3		
		3 ppm		
Biological limit values	No biological exposure limits noted fo	r the ingredient(s).		
Exposure guidelines				
US - California OELs: Skir	ı designation			
diethanolamine (CAS 1 US ACGIH Threshold Limi	11-42-2) Can b t Values: Skin designation	e absorbed through the skin.		
diethanolamine (CAS 1	11-42-2) Can b	e absorbed through the skin.		
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.			
Individual protection measure	s, such as personal protective equipme	ent		
Eye/face protection	Wear safety glasses with side shields (or goggles).			
Skin protection				
Hand protection	Wear protective gloves such as: Nitrile. Neoprene.			
Other	Wear suitable protective clothing.			
Respiratory protection	If engineering controls are not feasible or if exposure exceeds the applicable exposure limits, use a NIOSH-approved cartridge respirator with an organic vapor cartridge. Use a self-contained breathing apparatus in confined spaces and for emergencies. Air monitoring is needed to determine actual employee exposure levels.			
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.			
General hygiene	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.			

# AppearancePhysical stateSolid, Liquid.FormSemi-solid paste.ColorRed.OdorAcrylic.Odor thresholdNot available.pHNot available.

Melting point/freezing point	9 °F (-12.8 °C) estimated				
Initial boiling point and boiling range	212 °F (100 °C) estimated				
Flash point	None (Tag Closed Cup)				
Evaporation rate	Slow.				
Flammability (solid, gas)	Not available.				
Upper/lower flammability or exp	losive limits				
Flammability limit - lower (%)	2.6 % estimated				
Flammability limit - upper (%)	15.3 % estimated

Decomposition temperature	Not available.				
Viscosity (kinematic)	Not available.				
Percent volatile	39.1 % estimated				

# 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials. Protect from freezing.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	Acrylic monomers.

# 11. Toxicological information

# Information on likely routes of exposure

Inhalation	May cause damage to organs by inhalation. May cause damage to organs through prolonged or repeated exposure by inhalation.			
Skin contact	May cause an allergic skin reaction.			
	Prolonged or repeated exposure may cause liver and kidney damage. These effects have not been observed in humans.			
Eye contact	Direct contact with eyes may cause temporary irritation.			
Ingestion	Causes damage to organs by ingestion. May cause damage to organs through prolonged or repeated exposure by ingestion.			
Symptoms related to the physical, chemical and toxicological characteristics	Narcosis. Behavioral changes. Decrease in motor functions. May cause an allergic skin reaction. Dermatitis. Rash. Edema.
